1/21/2016

REAL-LIFE LEARNING

The Expo helps students **develop** their career aspirations, **connect** with future employers and **see** the link between today's classes and tomorrow's possibilities.

"I am so very grateful to the Portland Workforce Alliance for your commitment to this wonderful program."

— Oregon Gov. Kate Brown

2016 NW YOUTH CAREERS EXPO

A PLACE FOR DISCOVERY

"A very good opportunity for those students ready for this step in their lives!"

— Joe Mauck, St. Helens High School

"Watching some students use a power tool for the first time and truly seeing the joy in their eyes as they accomplished something they never thought they could was amazing. ... We felt like we were part of something bigger. The Expo is a great way for students to see what their options are and inspire them to look at the world differently."

— Samantha Jordan, Emerick Construction Co.

"As a returning exhibitor, I can testify (this was) a successful and fun experience for our group. We felt welcomed and ready to engage and encourage the future workforce of Oregon."

— Toby Ensign, Wells Fargo Bank

"In addition to being able to educate students about energy careers, we have an opportunity to reach out to teachers. Educating a teacher is a sustainable effort that we greatly appreciate."

— Maureen Fallt, Portland General Electric

"This was a great event! It was well organized and the location was awesome. Never have I seen so many schools and students entertained and enthusiastic."

— Warren Cunningham, Timber Lake Job Corps

"The Expo offers a good opportunity for students to gain insights about a variety of careers, the education, skills and experience they will need. It offers also a chance for educators to explain to students what they can gain if they choose a career they love."

— Raquel Laiz, Franklin High School
