

In 1998, Sid Scott and Kelly Edwards founded **SCOTT | EDWARDS ARCHITECTURE (SIEA)** with the goal of providing the highest quality architecture and planning services with exceptional customer service. We now have 7 principals who bring over 100 years of combined experience to SIEA's leadership team. As the firm has continued to grow over the past 22 years, our commitment has remained the same, **PEOPLE FIRST | DESIGN FORWARD.**

Our mission is to enhance life for clients, users, and communities through thoughtful design in architecture, planning, and interiors.

Kelly J. Edwards Architecture Sponsorship

Kelly Edwards, co-founder of SIEA, is lauded as "the most well-rounded architect" and a person with "incredible integrity." He would often spend a lot of time mentoring our youngest staff and shaping them into versatile architects. Sadly, Kelly passed away in 2016, but the firm has determined a most fitting way to honor his name and promote what he stood for.

SIEA is proud to honor Kelly's legacy by launching the Kelly J. Edwards Architecture Scholarship in partnership with the ACE Mentor Program of Oregon, an after-school program that helps high school students explore careers in architecture, construction management, and engineering.

The annual scholarship awards \$5,000 to one underrepresented student of color who is pursuing a college degree in architecture.

"The focus of our scholarship is to support underrepresented students that reflect what Kelly stood for as they pursue an architectural education."

– Sid Scott, Principal

Administered through ACE, the award is distributed such that the recipient can apply \$2,500 each to their first two years of school. After their second year, a summer internship at SIEA is made available, as well as job shadow opportunities throughout the year.

For more information about how to apply for the scholarship, please contact Kari Smith Haight from ACE at kari@portlandworkforcealliance.org.

FIRM STATS

82 Staff Members

Work in **23** States

10 Sustainability Certifications

58 Industry Awards
